

Up-to-date practical guidance is essential to IHBC members and other building professionals involved in conservation and repair of traditional masonry buildings.

Delivered by a diverse portfolio of building conservation and stone industry experts, this training day includes the opportunity to see completed work at Marischal College (pictured above) and The Green THI.

# IHBC Training Day: Masonry Repair and Conservation

Wednesday 27th February 2013

10.00am - 4.30pm
