## **IHBC Annual School coming to the East Midlands in 2019!**

Yes, you read that correctly. It was our turn again. How time flies since the Annual School in Buxton in 2009!

So, just as a taster as our plans are still evolving but as a Branch we've selected Nottingham as the host location after some stiff competition from Leicester. Both would make great locations but the pluses were slightly greater for Nottingham's bid / offer. How about Leicester 2029??

So, the theme handed to us from IHBC Central is around the idea of combatting the type of extreme challenges faced by the historic environment and individual assets, such as substantial fire damage, flooding and other natural disasters. But the theme is always a guiding steer and can be interpreted in many ways, so potentially bringing in talks or features on financial challenges, loss of conservation services or who knows, the emerging challenges to legislation and regulation posed by 2019's main event of departing the European Union. Lots to play for.

If you are keen to contribute ideas or to get involved, we've got a small group of volunteers at the moment and you can contact them via Liz Mayle / Alice Ullathorne by email.
